

Dear Sir, Madam,

For another year consecutive we would like to send you some information about our water park to offer the most refreshing summer experience.

Aquabrava proposes to enjoy a fantastic day full of fun and new sensations, with the most amazing water attractions surrounded by luxuriant vegetation.

You can forget the mysterious Black Hole, the colossal river rafting Anaconda, the most exciting racing slides: Bullet and Kamikaze, the children areas: Tropic Island and Kid's Lagoon and the star attraction: the Wave Pool.

We also give groups the opportunity to combine fun with an educational activity in nature: the discovery of variety of botanical species found throughout the park, follow signs to our botanical trail.
